

## Innolux Add Thinner VOC

8038

Thinner with a percentage of organic solvents for use with UV paints and varnishes in furniture and interior finishing, for industrial use

### PRODUCT DESCRIPTION

#### Product numbers

8038000210

#### General

Special-purpose thinner for Innolux paint and varnish systems made with reactive diluents and organic solvents, used to adjust viscosity for easier application.

#### Application area

Additive for Innolux base and top coats for most application methods.

### PROCESSING

#### Processing instructions

- Please stir the product before use.
- The temperature of the product and object, and the room temperature must be at least + 15 °C.
- Protect the product from light and sunlight!
- Innolux Add Thinner VOC (8038) must be incorporated carefully into the hardened varnish by stirring.
- Strong thinning effect.
- Paints/varnishes that have been mixed can be used as explained in the relevant technical data sheet.
- Any change in the processing sequence, environmental conditions, non-observance of instructions or the use of products not listed may have an unfavourable effect on the result.
- Please observe our **ARL 210 - Working guidelines for Innolux coating systems**.

#### Quantity to be added

Quantity to be added: 0.1% - 5% relative to the quantity of paint or varnish.

The amount added varies depending on the area of application and UV system. Please contact your sales representative.
